When instructed to do so, please answer the following questions as best you can. Hand in this worksheet at the end of class. Don’t forget to put your name at the top!

1. Write a void method `addTwo` that takes as a parameter a single int array `moreInts` and adds 2 to each element of `moreInts`.

2. Write a method `countWord` that takes as parameters a String array `names` and a String `word` and returns how many of the strings in the array are equal to `word`.

3. Write a method `max` that takes as parameters a double array `lotsaDoubles` and returns the maximum.
