When instructed to do so, please answer the following questions as best you can. Hand in this worksheet at the end of class. Don’t forget to put your name at the top!

1. Write a method `countLetter` that takes as parameters a string `s` and character `c` and returns how many times `c` appears in `s`.

2. Write a method `getMax` that takes as parameter an integer `n`, prompts the user for `n` non-negative integers and returns their maximum.

3. Write the method `calcGPA` that takes as parameter an integer `grade` and prints the GPA associated with this grade to the screen/console.
