Announcements for February 6

- Jackie (our wonderful secretary) has sent the classlist to Res/Ed so they can add your ID to the security system that opens the building. In a day or two your ID should open the doors to King 24/7. If this doesn’t work by Friday, go talk to Jackie in King 223.
- Remind me to give out the code for the combination locks on the lab doors.
- For Monday read Sections 3.1 and 3.2 quickly and 3.3 more carefully.
- If you log into Blackboard you should see the class Blackboard page. In the control panel (upper left) there should be a link titled “Register your iClicker”. The back of your clicker has a bar code with a number; this is the number the clicker wants. Do register your clicker over the weekend.
