For Friday read

1. Java Bootcamp
2. Look at Java4Python
3. Weiss Chapter 1

The *Java Bootcamp* notes were written about 10 years ago by one of our former faculty members. They have the transition from 150 to 151 in just 8 pages. Java4Python is a much longer document from the Net that does the same thing. There are links to both of these documents on the class home page: [www.cs.oberlin.edu/~bob/cs151](http://www.cs.oberlin.edu/~bob/cs151)

There is now a link on the class home page for requesting a tutor for this course.
