

HOMEWORK 2

INSTRUCTIONS

Due on Friday, Sep. 25th, 2015, at class time (2:30PM)

You must submit this assignment electronically, via Blackboard, as a PDF.

QUESTIONS

- (1) Ch.3, problem 3.11
- (2) Ch.3, problem 3.15
- (3) Ch.3, problem 3.20
- (4) Ch.3, problem 3.21
- (5) Test your MySQL account on sql.cs.oberlin.edu. You'll need to ssh to that host with your regular CS Unix account, and then run

```
mysql -u username -p
```

You'll enter your password, then type:

```
use moma;
```

to get into the MOMA database.

Return the number of records in the table *moma*, and how many different artists are represented in the collection.

Note: I am still working on getting more records into this database, so your answer to this question will change over time, so don't be surprised if something is odd.

Please affix the required "I have adhered to the Honor Code in this assignment." at the bottom of your submission.
